# Forsys Implements Conga CPQ & CLM for a Software Solutions Company, Expedites Quote Generation by 38%, Contract Processing by 42%

## INSIGHT

The client headquartered in California is a cloud-based software company that provides technological solutions to financial service organizations. The client wanted to automate its Quote-to-Cash process and overcome the challenges of manual creation of quotes and contracts.

Forsys implemented Conga CPQ and CLM solutions to help the software company improve its overall business efficiency, boost win rates, optimize quoting time, and give access to a complete view of the contracting process.

**Industry**
Software Development

**Revenue**
$64+M

**Employees**
501-1,000

**Headquarters**
California, USA

## BUSINESS CHALLENGES

The key challenges for the client were:

- Manual Quotation process
- Manual process for creating and maintaining the contracts
- Decentralized Quote-to-Cash process
- Manual and Inconsistent Proposal Documents
- Longer Deal Cycle
- Lack of effective tracking measures
- Ineffective monitoring of Contract Renewals and Assets

## TRANSFORMATION JOURNEY

The end-to-end solution involved these **Conga CPQ deliverables:**

- Implementation of Conga CPQ to support new and existing customers
- Configuration of Product Bundles to support all the Product Lines
- Support Recurring and Usage Pricing Models in Quoting process
- Support for Add-On, Renewal, and Termination scenarios.
- Set up of Advanced Approvals & notifications
- Management of Conga Standard Templates
- Generation of Standard Reports
  - Deal Cycle Time Report
  - Deal Win Rate Report
  - Adoption Report etc.,
- Integration of NetSuite for Contracts

**Conga CLM deliverables included:**

- Installation and setup of Conga CLM and eSignature packages
- Integration of End-to-End Contracting (Request, Drafting, Negotiations, and Execution) process with CPQ
- Configuration of different Agreement Types and Templates – NDA, Master Enterprise Agreement, SOW, Addendum, Amendment, End User Agreement, and so on
- Establishment of agreement hierarchical view
- Configuration of reporting on Lifecycle metrics, T&Cs reporting (e.g., Commonly negotiated Clauses, high risk contracts, non-std. terms), Reporting & Trends by request source, status, type, and other key deal terms/metadata.
- Setting up of automatic email notifications
- Migration of Executed Contracts

## IMPACT

Forsys successfully implemented Conga CPQ & CLM solutions with the following impact:
