CASE STUDY

23% Increase in Customer Lifecycle Value with Implementation of Subscription Management & Headless Digital Commerce Leading to Higher Revenue

Insight

A Canadian multinational media conglomerate wanted to bolster its digital commerce footprint as the market and customers were increasingly leaning towards digital channels.

Forsys designed a Digital Commerce solution that enabled the client to create a high-quality buying experience across all sales touchpoints and leverage headless eCommerce. The POS modernization resulted in personalization of the buying experience and error-free subscription management, which improved client loyalty by 18%, increased client lifecycle value by 23%, and bolstered sales with 30% jump in upsell and cross-sell opportunities.

Business Challenge

The client was losing customers due to:

- Fragmentation of systems and data disruptions.
- Frequent conflicts between channels leads
- Inconsistency in product offers and pricing
- Higher time to market and negative ROI
- Higher maintenance costs

Transformation Journey

Forsys implemented the Conga Digital Commerce Solution to unify and modernize the buying and selling experiences, upgrade the buying experience across all sales touchpoints, and streamline subscription management and headless eCommerce.

Impact

- Client retention improved by 18%.
- Improvement in customer lifecycle value by 23%.
- Rise in upsell and cross sell opportunities by 30%.
- Personalization of buying experience.
- Rise in search volume with frictionless buying.

About the Client

The client is the world's leading provider of news and information-based tools for professionals. Its worldwide network of journalists and specialist editors keeps customers up to speed on global developments, with a particular focus on legal, regulatory, and tax changes.
