Case study

FORSYS
Forward Thinking

~25% Increase in Customer Lifecycle Value Resulting in Revenue Growth with Optimization of Omnichannel Commerce Experience

Insight

A global automation corporation, famous for supplying robots to leading automakers, spent a lot of its time engaging and interacting with customers. It wanted to create personalized customer engagements with a branded B2B storefront and complex product configurations and modernize its digital commerce experience.

Forsys used Conga technology to deliver an omnichannel commerce experience and personalize customer engagements for the client, which improved customer retention by 18% and enhanced customer lifetime value by 23%.

Business Challenge

With the changing consumer preferences and social trends, the need for advanced robotics solutions gained momentum which compelled the client to connect the stakeholders to its robotic offerings via a personalized digital commerce experience. They needed a digital commerce solution to unify the buying experience and guide customers through the configuration, pricing, and order process.

Transformation Journey

Forsys teamed up with the client, conducted process discovery sessions, identified technology gaps, and implemented CPQ, CLM, and Digital Commerce from Conga.

Impact

After the deployment of Conga solutions, the client:

- Grew customer retention by 18%.
- Improved customer lifetime value by -25%.
- Unified & personalized B2B buying and selling experience.
- Guided customers through the configuration, pricing, & ordering processes.
- Delivered personalized customer engagements.
- Lowered Quote-to-Cash related expenses.
- Improved time-to-quote & sales cycle.

Insight

The client is a global automation corporation with sales of around EUR 3.2 billion and around 14,000 employees. As a leading global supplier of intelligent automation solutions, it offers customers everything from a single source: from robots and cells to fully automated systems and their networking in markets such as automotive, electronics, general industry, consumer goods, e-commerce/ retail, and healthcare. The company is headquartered in Augsburg, Germany.
