Case Study

75% Faster Deal Approvals with E2E Optimization of Contract Workflow

Insight

A leading manufacturer of precision optics wanted to digitize its manually-driven legal operations as its legal team spent days generating contracts and routing approvals. It needed a digital workflow engine to manage contract-related tasks and track their execution.

Forsys designed, configured, and implemented the solution which enabled the client to optimize contract creation and approval, reduce the contract lifecycle time to 90 minutes, fast track the approval time for deals by 75%, and register a 30% increase in contract volume.

Business Challenge

The client wanted to get more value from its massive volumes of contracts but failed to do so because of a manually driven contracting process. Also the internal teams spent crucial work hours on manual and labor-intensive tasks.

The key challenges faced by the client:

- **Customization of contracts quickly and accurately.**
- **Delayed overall contracting process.**
- **Track the contract performance.**
- **Lack of standard workflows.**
- **No reliable repository to store the contracts.**

Transformation Journey

Forsys collaborated with the customer's legal, operations, and IT stakeholders to understand the current process in place, document the use cases, and design the solution approach. We designed, configured, and implemented Conga CLM within the predefined budget.

The key points of the approach to the solution:

- Developed E2E contract process workflows for 5 separate contract agreement types.
- Set up 5 email notifications.
- Migrated ~2800 executed contracts.
- Set up 3 standard out-of-the-box (OOB) reports.
- Trained customer teams on Conga CLM functionality specific to the implemented solution.

Impact

Post the Conga CLM implementation, the client:

- **Reduced the contract lifecycle time to 90 minutes.**
- **Lowered the deal approval time by 75%.**
- **Recorded 30% jump in contract volume.**
- **Saved 20% time and labor.**
- **Accelerated the pace of contract creation and approval.**
- **Improved data sharing within the contracts team**
- **Enhanced upstream and downstream**
- **Improved contractual, regulatory, and corporate compliance.**
- **Accelerated rebate management, data integrity & legacy data migration.**

About the Client

The client is a leading technology enterprise operating in the fields of optics and optoelectronics. For its customers, the technology company develops, produces, and distributes highly innovative solutions for industrial metrology and quality assurance, microscopy solutions for the life sciences and materials research, and medical technology solutions for diagnostics and treatment in ophthalmology and microsurgery.
