Case Study

Migration of Over 3 Million Legacy Assets to Conga CPQ with Reformed Quote-to-Order Workflow

Insight

An American video delivery technology and services leader used Oracle BMI as the CPQ sales platform. Despite that, they created sales orders manually because Oracle BMI couldn't streamline the Quote-to-Order process.

FloData made it possible for the client to retire Oracle BMI & move to Conga CPQ, execute Quote-to-Order integration, and migrate 13k+ products with over 85 complex configurators & rules, along with 11k+ quotes and over 3 million legacy data.

Industry	Revenue	Employees	Headquarters
Telecommunications	$150+ M	1k+	California, US

Business Challenge

When the customer's sales rep created the order from the quote in Oracle BMI, they would be The absence of Quote-to-Order functionality in Oracle BMI impacted the client's sales. Their team spent crucial man-hours on manual order creation.

The other notable key challenges faced by the client were:

- High maintenance and enhancements to product configurations.
- Inadequate approval visibility.
- Issues with pricelist proliferation
- Managing subscriptions & renewals

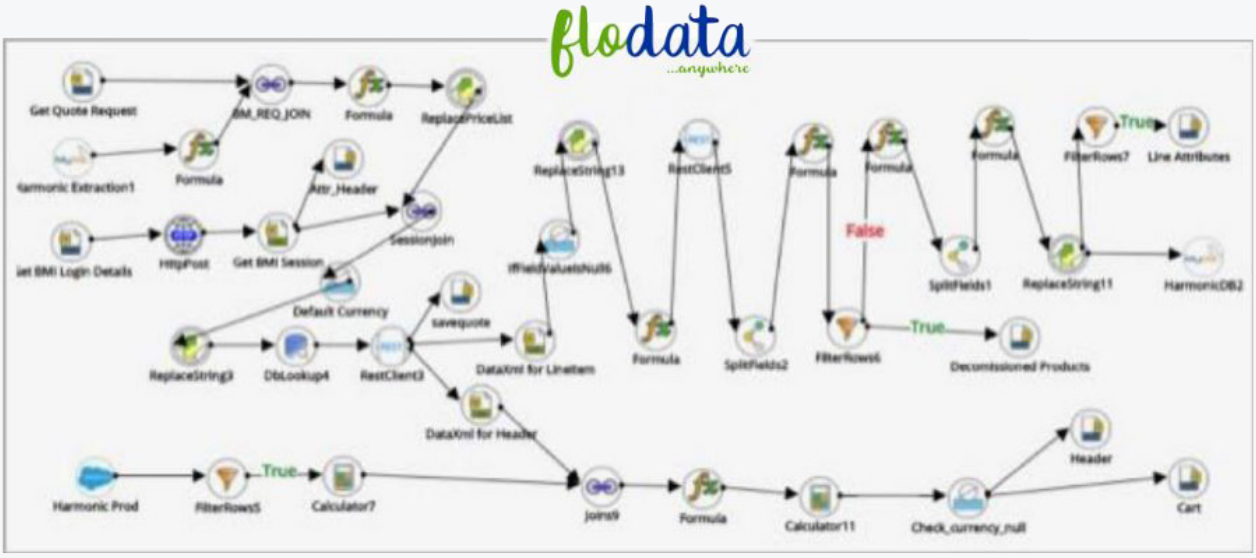
Transformation Journey

In mid-August 2017, Forsys engaged with the client, reviewed their business processes and requirements, and found a potential business disruption risk due to the proximity of the license expiration and release dates.

We leveraged the two-phased approach to counter the business disruption threat, conducted strategy and advisory sessions, addressed the limitations and challenges, and then retired Oracle BMI in the first week of February 2018 (i.e., 8 weeks ahead of the original schedule).

The key highlights of the approach to the solution are:

- Mapping of the source product from Oracle BMI to the new target product in Conga CPQ.
- Validation of prices both at line level and quote level.
- Implementation of Conga CPQ.
- Syncing of master data between Oracle BMI & Conga CPQ.



Impact

Since the go-live, the client witnessed the following:

- **Migration of 13K+ products with over 85 complex configurators & rules from Oracle BMI to Conga CPQ.**
- **Quote-to-Order integration between Conga and Oracle ERP & addressed the manual order creation challenges.**
- **Automated creation of 20 price lists, including customer price lists.**
- **Simplified collaboration of quotes between partners/internal users and operations teams.**
- **Migration of 11k+ quotes and over 3 M legacy data from Oracle BMI to Conga CPQ during production cut-over.**
- **Quotation for SaaS, hardware and software products.**
- **Multi-currency quotation process to support quoting across locations and currencies.**
- **Partner quotation process to assist partners quote using Conga CPQ.**
