Conga CLM Upgrade by Forsys

Increases Contracting Accuracy by 45% for a Hospitals & Healthcare Client

Case Study

INSIGHT

The client headquartered in Seattle, Washington, is a leading provider of analytics, software solutions, and clinical guidelines that help healthcare organizations design strategies and make informed decisions. The client wanted to upgrade its Conga CLM solution to use the enhanced features and gain better visibility into the contracting process.

Forsys upgraded the Conga CLM solution to the latest version to fasten the contracting process and increase accuracy.

Seattle, USA

BUSINESS CHALLENGES

The client was using Conga CLM to streamline its contracting process. However, with the older version, the contracting solution was not fully optimized. Therefore, the client wanted to upgrade its CLM solution to the Feb 2023 version for enhanced features, track contracts, gain visibility into the executed contracts, and more.

The key business challenges for the client were:

- Need for smooth User Adoption features
- Lack of Process visibility and contract tracking
- No Tracking and visibility of signed and executed Contracts

TRANSFORMATION JOURNEY

As a part of the transformation journey, Forsys did the following:

- **Upgraded the Conga CLM applications to have the features of Feb 2023, Version - 14.696**
- **Facilitated effortless Amendment, Renewal, and Termination of the contracts**
- **Enabled the client to efficiently perform the redlining on Contract documents**
- **Automated the e-sign process using Adobe E-signatures**

IMPACT

Forsys successfully upgraded the Conga Contract Lifecycle Management for Healthcare customer with the ability to -

- **EXPEDITE CONTRACTING PROCESS BY 20%**
- **INCREASE CONTRACT ACCURACY BY 45%**
- **SIMPLIFIED CLM PROCESS**
- **IMPROVE SCALABILITY**

ABOUT THE CLIENT

The client, headquartered in Seattle, Washington, uses AI and Technology to provide clinical guidelines, software solutions, and analytics to help healthcare organizations make informed decisions and implement the right healthcare strategies for improved patient care. The client's content is used by some of the largest US health plans and nearly 2,600 US hospitals to drive efficient and appropriate care delivery.
