BUSINESS CHALLENGE

The client had implemented Conga CLM to streamline its contracting process. With the older version, the contract management solution was not fully optimized. As a result, the client wanted to upgrade the Conga CLM solution to Feb 2023, Version - 14.696 to maximize efficiency, organize the current workflows effectively, and use the system effortlessly.

The key business challenges for the client were:

- Lack of Smooth User Adoption features
- Low maintained structure
- In need of feature enhancements
- Lack of Process visibility and contract tracking
- Inefficient workflows (for request, approvals, & signatories)
- No Tracking and Visibility of the executed Contracts

TRANSFORMATION JOURNEY

As a part of the transformation, Forsys did the following:

- Upgraded the Conga CLM applications to have the features of Feb 2023, Version - 14.696
- Enhanced the workflows and approvals
- Enabled features to efficiently perform the redlining on Contract documents
- Enabled email notifications during important stages of the contract life cycle
- Facilitated effortless Amendment, Renewal, and Termination of the contracts
- Automated the e-signature process using Adobe E signatures

IMPACT

Forsys successfully upgraded the solution for the client with the ability to:

- 20% faster contract processing
- 45% increase in contract accuracy
- Enhanced scalability
- Simplified CLM process

ABOUT THE CLIENT

The client is a major provider of drug and medical device databases that help healthcare professionals make critical medication decisions. The client partners with information system developers to deliver useful medication- and medical device-related information to clinicians, business associates, and patients.

SOLUTION COMPONENTS

Salesforce (CRM Platform), Conga CLM, Adobe E signatures
